

The World Moves On

Printers thought the typesetting machine was not practical—

The horse breeder said the automobile would never be in general use—

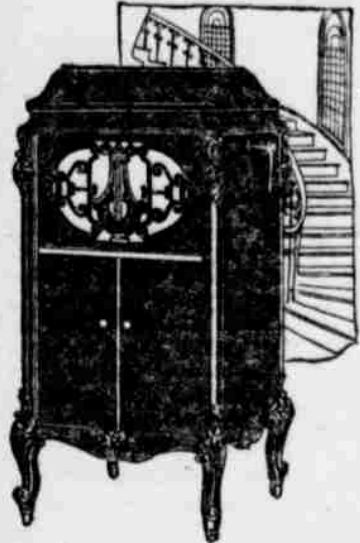

The wire manufacturer said "wireless" was a dream—

Even congressmen said "heavier-than-air" flying machines were impossible—

The last to be disturbed by the wheels of progress is the single-record phonograph manufacturer, who says the playing of all records on one machine "cannot be done."

"CANNOT BE DONE"

is now in the scrap heap, for—

The Brunswick does it!

It attracts the eye.

It pleases the ear.

It plays all records at their best.

It Is All Phonographs in One

Hear the Brunswick First—Decide for yourself.

Prices \$32.50 to \$1,500.00—Terms to Suit

Keep That Coal Bin Full

This mild weather will not last long, so don't neglect to watch your supply of coal. Crisp, cool weather will be here almost any day and already the miners are slowing up on their shipments—it may be on account of the "flu," or perhaps they are just letting down in their efforts now that the war is over.

Luckily we are prepared to take care of you on all of the high-grade Arkansas Anthracite or Semi-Anthracite in the lump, and all grades of Iowa, Kansas, Missouri, Wyoming, Colorado and Oklahoma coals, which are extra good quality, clear and free from waste.

Samples of all these grades are on display at our office in the Corby-Forsce building, 114 South Fifth street.
